3. Evaluation

Preparatory session

The Chairperson informed the Evaluation Committee of the scope of the proposed contract, identified the organisations responsible for preparing the tender dossier, and summarised the essential features of the tender procedure to date, including the evaluation grid published as part of the tender dossier.

Tender opening session

The Tender opening report is attached to this report. The Evaluation Committee only considered those tenders, which were found to be suitable for further evaluation following the tender opening session.

3.1 Administrative compliance

The Evaluation Committee used the administrative compliance grid included in the tender dossier to assess the compliance of each of the tenders with the administrative requirements of the tender dossier.

[If clarifications were requested for the submissions from any tenderers:

With the agreement of the other Evaluation Committee members, the Chairperson wrote to the following tenderers whose tenders required clarification, offering them the possibility to respond by <wi>within a reasonable time limit fixed by the evaluation committee
 (all correspondence is attached in the Annex indicated):

Tender envelope No	Tenderer name	Lot number*	Summary of exchange of correspondence

1

The completed Administrative compliance grid is attached. On the basis of this, the Evaluation Committee decided that the following tenders were administratively non-compliant and should not be considered further:

Tender envelope No	Tenderer name	Lot number*	Reason
			[The tenderer is in an exclusion situation.]
			[The tenderer has misrepresented or failed to supply the information required.]
			[The tenderer was previously involved in the preparation of procurement documents, this entailing a distortion of competition which cannot be remedied otherwise.]

Tender envelope No	Tenderer name	Lot number*	Reason
			[The tenderer does not meet the selection criteria.]
			[<other reason="">]</other>

3.2 Technical compliance

Each evaluator on the Evaluation Committee used the Technical evaluation grid included in the tender dossier to assess the compliance of each of the tenders with the technical requirements of the tender dossier. The completed Technical evaluation grids are attached.

[If clarifications were requested from any tenderers:

With the agreement of the other Evaluation Committee members, the Chairperson wrote to the following tenderers whose tenders required clarification, offering them the possibility to respond by <wi>thin a reasonable time limit fixed by the evaluation committee > (all correspondence is attached in the Annex indicated):

Tender envelope No	Tenderer name	Lot number*	Summary of exchange of correspondence

1

After discussing the individual conclusions of the Evaluators, the Evaluation Committee concluded that the following tenders were technically non-compliant and should not be considered further:

Tender envelope No	Tenderer name	Lot number*	Reason
			[The tender does not comply with the minimum requirements specified in the procurement documents.]
			[The tender does not meet the minimum quality levels.]

3.3 Financial evaluation

The Evaluation Committee checked the technically compliant tenders for arithmetic errors.

[If any arithmetic errors were found:

As stated in the instructions to tenderers, arithmetic errors were corrected on the following basis:

15 January 2016 Page 3 of 13

- Where there was a discrepancy between amounts in figures and in words, the amount in words prevailed
- Where there was a discrepancy between a unit price and the total amount derived from
 the multiplication of the unit price and the quantity, the unit price as quoted prevailed,
 except where the Evaluation Committee agreed that there was an obvious error in the unit
 price, in which case the total amount as quoted prevailed
- Where unconditional discounts applied to financial offers for individual lots, the discount was applied to the financial offer

The following arithmetic corrections were made:

Tender envelope No	Tenderer name	Lot number *	Stated financial offer [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	Arithmetically corrected financial offer [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>

The arithmetically corrected financial offers were compared [for each lot] to identify the technically compliant tender with the lowest price [for that lot].]

[If a tender appears to have an abnormally low price in relation to the market for the supplies in question:

The tender submitted by <Tenderer name> appeared to have an abnormally low price in relation to the market for the supplies in question. Consequently, the Chairperson of the Evaluation Committee wrote to <Tenderer name> to obtain a detailed explanation for the low price proposed.

On the basis of the response of the tenderer, the Evaluation Committee decided to

EITHER [accept the tender because

[the tenderer used an economic production method]

[of the nature of the technical solution used]

15 January 2016 Page 4 of 13

[the financial offer reflected exceptionally favourable conditions available to the tenderer.]]

OR [reject the tender as the abnormally low price could not be justified on objective grounds.]

[For each lot] The ranking of the tenders which were not excluded during the evaluation was as follows, in order of the arithmetically corrected financial offers:

Tender envelope No	Tenderer name	[Lot number] *	Financial offer [after arithmetical correction] [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	Ranking

]

[If discounts are offered: Application of discounts:

[Lot number*]	Tender envelope No	Tenderer name	Financial offer [after arithmetical correction] [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	Discount applicable [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>

^{*} Delete column if there are no lots.]

EDF only: If preferential rules are to be applied:

[Preferences: for supply contracts of a value of less than 300 000 euros, tenderers of the ACP states, either individually or in a consortium with European partners, shall be accorded a 15% price preference during the financial evaluation.

Moreover, where two tenders are acknowledged to be equivalent, preference shall be given:

- (a) to the tenderer of an ACP State; or
- (b) if no such tender is forthcoming, to the tenderer who:
 - allows for the best possible use of the physical and human resources of the ACP States,
 - offers the greatest subcontracting possibilities to ACP companies, firms or natural persons, or
 - is a consortium of natural persons, companies and firms from ACP States and the European Union.

The application of these rules concluded the following results:

[Lot number*]	Tender envelope No	Tenderer name	Financial offer [after arithmetical correction] [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	Financial offer after applying preferential rules [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>

]

[Only very exceptionally, subject to prior approval, if the best price-quality ratio criterion applies, add the following paragraph:

Financial scoring

The Evaluation Committee compared the financial offers to calculate their financial scores:

[Lot number] *	Tender envelope No	Tenderer name	Financial offer [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	Financial score

1

[If any of the tenderers submitting the least expensive financial offer (after application of the preferential rules if any) for any of the lots has submitted a variant solution and provided that variants were allowed in the tender dossier for an amount equal or below to the price of the original tender:

Technical and financial evaluations were carried out of any variant solution submitted by tenderers, which had submitted the technically compliant tenders with the least expensive financial offers for each lot. The arithmetically corrected financial offers of the technically compliant variant solutions were as follows:

Tender envelope No	Tenderer name	[Lo t No*]	Stated variant financial offer [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	Arithmetically corrected variant financial offer [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	Arithmetically corrected original financial offer [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>

1

3.4 Most economically advantageous tender

[Either: The most economically advantageous tender is the technically compliant tender with the lowest price.]

[Or, where exceptionally the best price-quality ratio criterion applies:

The most economically advantageous tender is the technically compliant tender with the best price-quality ratio. The best price-quality ratio is established by weighing technical quality against price on a basis to be determined on a case by case basis:

Tender envelope number	Tenderer name	Overall score (Technical score x 0.**0 + Financial score x 0.**0)	Final ranking

]

4. Conclusion

Verification of documentary evidence for exclusion and selection criteria

The Evaluation Committee checked that the documentary evidence for exclusion and selection criteria for the tender with the highest overall scores were submitted.

[If clarifications of documentary evidence were requested from the tenderer:

With the agreement of the other Evaluation Committee members, the Chairperson wrote to the tenderer offering them the possibility to respond by fax or email within a reasonable time limit fixed by the evaluation committee (all correspondence is attached in the Annex indicated):

Tender envelope number	Tenderer name	Summary of exchange of correspondence

]

The Evaluation Committee verified the documentary evidence for exclusion and selection criteria for the tender with the highest overall scores and the documents were found [admissible] [not admissible].

If the documentary evidence is not found admissible the evaluation committee shall proceed to the second best technically and financially acceptable tender and verify their documentary evidence. If the documents are found admissible the conclusion may be to propose to award the contract to them.

The evaluation committee has ensured that the recommended tenderer or the members in the consortium are not in a situation of exclusion in the Early Detection and Exclusion System. [In indirect management if the contracting authority does not have access to the Early Detection and Exclusion System this has to be verified with the representative of the European Commission.]

15 January 2016 Page 10 of 13

Consequently, the Evaluation Committee recommends that the contract[s] [is] [are] awarded as follows:

[Lot number*]	Tender envelope No	Tenderer name	Financial offer (after arithmetical correction and discounts) [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	[Spare parts and/or consumables] [EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>	[EUR] [<iso code="" currency="" national="" of=""> only for indirect management in the following cases: (i) when legal or local constraints exceptionally impose using the national currency; (ii) when needed, for contracts within the imprest component of a programme estimate]</iso>

^{*} Delete column if there are no lots.
