LCC PROGRAMS TEAM

WHAT WE DO

LCC PROGRAMS TEAM RESOURCES

Education & Workforce development

- Self-managed platform: Foundation level courses to start your journey in the cloud.
- Specific content for pre professionals.

[LEARN MORE](#)

Empowering higher education institutions to prepare students for industry-recognized cloud careers and certifications.

[LEARN MORE](#)

(Digital Government): Train public officials in cloud computing concepts, cloud value proposition, use cases, framework agreements, and understanding of the different services available through the AWS cloud.

[LEARN MORE](#)

LCC PROGRAMS TEAM RESOURCES

Research and Development

Supports researchers who seek to:

- Build cloud-hosted publicly available science-as-a-service applications, software, or tools to facilitate research.
- Perform proof of concept evaluating the efficacy of moving research workloads or open data sets to the cloud
- Train a broader community on the use of cloud for research.

[LEARN MORE](#)

Startup community

- AWS Activate offers startups benefits like: AWS credits and training to help them grow their business.
- It offers tools and specialized support so that the startup can achieve its goals with AWS.
