## REQUEST FOR BID:

**Reference Number: PSM/230164/LaboratoryReagents**

### ***PROCUREMENT OF LABORATORY REAGENTS***

#### **SUPPLY CONTRACT**

CARPHA was legally established in July 2011 by an Inter-governmental Agreement (IGA) signed by Heads of Caribbean Governments and began operations in January 2013. CARPHA's functions encompass the responsibilities of five (5) previously existing regional health institutions. Work in these areas advances the public health agenda in the Region and makes a valuable and coordinated contribution to the knowledge and resources of the international health community. Funded provided by The Government of Spain. This project aims to strengthen health systems across CARICOM Member States and CARPHA to prevent, control, and respond to the COVID-19 pandemic and other emerging and re-emerging threats and to generate evidence and information to inform decision-making on the management of the public health priorities and emergencies and disease control programmes and policies.

You are invited to submit a bid for the items as stated in the technical specifications below.
