REVISED

AGREEMENT ESTABLISHING

THE CARIBBEAN AGRICULTURAL HEALTH
AND FOOD SAFETY AGENCY

(CAHFSA)
REVISED AGREEMENT ESTABLISHING
THE CARIBBEAN AGRICULTURAL HEALTH AND FOOD SAFETY AGENCY
(CAHFSA)

Preamble

The Contracting Parties:

Desirous of implementing the mandates of the Revised Treaty of Chaguaramas establishing The Caribbean Community, particularly the promotion and support of the establishment of an effective regime of sanitary and phytosanitary measures as stated in Article 57(1)(k), and the harmonisation of laws and administrative practices in respect of sanitary and phytosanitary measures, as provided in Article 74(2)(e);

Recognising the obligations of Members of the Caribbean Community party to the WTO Agreement on the Application of Sanitary and Phytosanitary Measures to apply international standards, measures and guidelines in the conduct of agricultural trade;

Acknowledging that the development and application of harmonised regional and international standards, measures and guidelines are essential for the efficient operation of the CARICOM Single Market and Economy (CSME);

Mindful that Members of the Caribbean Community have encountered difficulties in complying with the sanitary and phytosanitary measures, and as a consequence in accessing regional and international markets;

Mindful also of difficulties in the formulation and application of sanitary and phytosanitary measures at the national level and desirous of providing assistance in this regard;

Desirous also of continuing the efforts of the Caribbean Community with respect to programmes and projects related to SPS measures including policy formulation, harmonisation of technical, legislative and administrative processes, institutional strengthening, infrastructure development and human resource capacity-building;

Conscious of the resource constraints that limit participation in all international meetings convened to develop, review and formulate international standards, measures and guidelines;

Aware that the Caribbean Community is extremely vulnerable to penetration of agricultural goods which may threaten the integrity of the agricultural health and food safety systems of its Members;

Reaffirming that no Member should be prevented from adopting or enforcing measures necessary to protect human, animal or plant life or health, subject to the requirement that these measures are not applied in a manner which would constitute a disguised restriction on regional and international trade or arbitrary or unjustifiable discrimination between Members where like conditions prevail.
